

## COVID-19

### SUMMARY OF FINANCIAL/TAX ISSUES

(as of June 24, 2020)

**Changes since last version (June 10) highlighted in green**

#### Canada Emergency Student Benefit ("CESB")

- For students and recent graduates who have seen their education and job prospects hampered by the ongoing COVID-19 pandemic.
- \$1,250 a month from May to August, and if you are taking care of someone else or have a disability, that amount increases to \$1,750 monthly.
- College and university students currently in school, planning to start in September, or who graduated in December 2019 are eligible.
- As well, working students earning less than \$1,000 per month can apply.

#### Canada Emergency Wage Subsidy ("CEWS") – 75% Wage Subsidy

- 75% wage subsidy on first \$58,700 of an employee's wage (providing up to \$847/week, for up to 12 weeks), retroactive to March 15.
- Direct payment to the employer.
- Employers who use this subsidy must do everything they can to supplement the remaining 25% of the wages.
- At least 15% drop in revenue in March and 30% for the following months against 2019.
- Under an alternative approach, employers are allowed to compare their revenue using an average of their revenue earned in January and February 2020.
- Wages paid to employees who are without remuneration by the employer for 14 or more consecutive days in the qualifying period will not qualify for CEWS.
- Available to "eligible employers" (definition differs from 10% Temporary Wage Subsidy)
- No restrictions by size of employer or number of employees.
- Claim periods are:
  - March 15 to April 11
  - April 12 to May 9
  - May 10 to June 6
- The Government expanded the CEWS by introducing a new 100% refund for certain employer-paid contributions to EI and CPP
- This refund covers 100% of employer-paid contributions for eligible employees for each week throughout which those employees are on leave with pay and for which the employer is eligible to claim for the CEWS for those employees.

- This refund is not subject to the weekly maximum benefit per employee of \$847 that an eligible employer may claim in respect of the CEWS. There is no overall limit on the refund amount that an eligible employer may claim.
- Amounts received from CEWS will not be counted towards revenue totals for the eligibility period (although CEWS will be treated as taxable income).

Process to qualify:

- Application to be via a CRA portal.
- Once an employer is found to be eligible for a specific period, the employer would automatically qualify for the next period.
- Will qualify even if having claimed for the 10% Temporary Wage Subsidy, but any amount received will be reduced from the 75% Canada Emergency Wage Subsidy.

### **Re-hiring**

- In order to make it more cost effective for employers to rehire workers, the Government is refunding employer contributions to Employment Insurance and the Canada Pension Plan.

### **Temporary Wage Subsidy (“TWS”) - 10% Wage Subsidy**

- 10% wage subsidy on employee wages paid from March 18 to June 19, 2020.
- Capped at \$1,375 per employee and \$25,000 per employer.
- No required drop in revenues
- Available to “eligible employers” (definition differs from 75% Canada Emergency Wage Subsidy)
- The employer must be under a certain size to qualify.
- Claimed as a credit against monthly CRA payroll remittances

### **Canada Summer Jobs Program temporary changes**

- An increase to the wage subsidy, so that private and public sector employers can also receive up to 100% of the provincial or territorial minimum hourly wage for each employee. There is a proposed extension to the end date for employment to February 28, 2021, allow employers to hire staff on a part-time basis and allow employers to adapt their projects and activities to support essential services.

- Also available if still working but not getting paid.
- Must have employment and/or self-employment income of at least \$5,000 in 2019 or in the 12 months prior to the date of application; and
